Partner With Us

Companies are always looking for ways to increase their profits and expand their business and brand. One solid opportunity is a partnership with **PartnerInVoIP**. We offer a unique opportunity to market and sell VoIP systems under your own brand name with little or no capital outlay, no increase in staff, and no real change in our current business operation.

PartnerInVoIP has the experience, expertise, and support to provide you an opportunity to take on an exciting product concept grow your business.

We call it, **“VoIP Business in a Box”**

PartnerInVoIP provides everything you need including training, marketing materials, lead generation, quote generating tools, legal documents, qualified service providers, and a billing & collections department that saves time and money. ..all at NO Cost. All you need to do is incorporate VoIP into your product/service line, market, sell, and install. We do ALL the rest!

Facts

- ✓ You can be up and running in a matter of hours.
- ✓ You are in complete control. You set your prices, you own your customers, you decide your territory,
- ✓ NO long-term contracts, NO signup fees, NO monthly or yearly fees, “NO capital option”, NO additional employees,
- ✓ A true white label VoIP platform for Resellers that is simple, inexpensive, and highly profitable.

Why VoIP?

Voice over IP VoIP as a technology and service has now come into its own and is now sought after by new and existing businesses because VoIP offers superior features, quality, reliability, flexibility, and scalability.

- ✓ VoIP sales have exploded, growing 18% last year.
- ✓ In fact, most predictions are that, at a time of soaring rates of major common carriers, VoIP will someday account for ALL commercial voice traffic in the US.

The only requirement to use VoIP services for a business is a Broadband connection that sends your voice as "data packets" across the Internet instead of a regular phone line. Companies simply invest in IP phones that directly plug into their Internet connection.

Most importantly, they save money and improve reliability. So, it is no wonder that VoIP is becoming a major source of revenue for Resellers.

- ✓ Once customers learn that they can save 60% or more on their current phone bill, virtually no down time, and have expanded features on their phone, VoIP phone service sells itself.

What's in it For Me?

What you can expect: By becoming a **PartnerInVoIP** Reseller, your revenue can increase by introducing your customers to VoIP service under your brand name.

High Revenue Potential: Increase the revenue of your company from Initial Installs, reoccurring services revenue, and long term residual income. You can earn 60% revenue, or more. The prices and percentages are set by you, the Partner Reseller. Plus, adding **PartnerInVoIP** platforms will increase the value of your business. You set your own pricing.

Start marketing immediately : Since **PartnerInVoIP** has done all the hard work for you, and provides all the training, materials and support at no cost, you simply start marketing and implementing a new cutting-edge and fast growing product and service platform to your company almost immediately.

You are in control: **PartnerInVoIP** focuses on servicing only you, the Reseller. Ownership of the customer remains yours. We are not interested in owning any customers. That is your role. All you have to do is become a Partner and start marketing. By joining **PartnerInVoIP**, you continue to do what you do best, marketing, selling, and service, and allow us to do what we do best, provide equipment, education, and all the administrative and billing functions.

Master Partner: By becoming a **PartnerInVoIP** Master Partner, your revenue can increase even further by recruiting your own Resellers and taking advantage of lower discounts from our qualified Service Providers.

Partner in VoIP allows you to operate your own VoIP business with a dedicated division under your current company branding. You can also just start out a new business of your own. You can market direct to customers or build a network of Resellers, each having their own individual brand.

All the same support we offer you, would be offered to them as well including, training, marketing, and invoicing. Billing flows through with each reseller able to control the pricing and profit margins for themselves.

Here are the top **5** reasons:

You Are In Control Your customers are ALWAYS your customers. We never sell direct to customers. Because our agreement is month-to-month, we earn our Partners business every day. So we focus on providing you and your customer with the best possible services to keep you as a Partner.

We do all of the Billings and Collections, even for products and services you sell directly to your customers from another source. We also maintain all of the regulatory requirements from federal, state and local governments and disperse taxes to the appropriate authorities.

Your Brand Since everything is White Labeled, you can put your name on all the service and products. We provide you support while remaining in the background to your customer.

Everything you Need We provide ready-to-go Marketing material, print, email, social media content and training with your brand. This too also is White Labeled so you can insert your brand.

Wholesale from Qualified Service Providers We provide you the services wholesale. You set your own pricing and keep the difference. Our partners typically make a 50-60% residual commission. That is 5 times higher than our national competitors.

Our Partner in VoIP Solutions contain all the latest technology and features for your Customers and Resellers.

Core Services

- ✓ **Hosted PBX** allows you to offer virtual PBX services to your customers.
- ✓ **Hosted ITSP** allows you to offer telephone service to residential and consumer markets.
- ✓ **SIP Trunking** allows you to offer long distance and international calling to businesses with either legacy PBX or telephone system. It can also be utilized with newer IP PBX system.
- ✓ **Hybrid Solutions** allows you to offer mix-and-match solutions to businesses that want to slowly transition into VoIP

Packed With VoIP Features

Nothing matches the flexibility, scalability, and accessibility of VoIP services that live in a cloud environment; one where the available computing resources adjust to accommodate your demand in real or near-real time.

What if disaster strikes? Can you continue business as usual? Are all your data, voice mails, etc. automatically backed up? **PartnerInVoIP** cloud VoIP model provides an embedded continuity plan that's built in at implementation.

With our platform, everything can be pushed from your office system directly to your mobile phone so that it literally becomes your traveling VoIP system. Never miss a call wherever you are.

One of the main advantages **PartnerInVoIP** has over conventional phone systems is it provides a method of cheap yet extensive long distance communication.

Become a Partner Today

PartnerInVoIP is looking for Service Providers, Resellers, Entrepreneurs, or Organizations looking to grow their business and who realize that the VoIP service business is an exploding industry.

You do not have to purchase equipment to install at your customer's site. We have purchase options. You tell us what to charge your customer, and we provide the equipment, take a small fee, and bill your customer with your markup. You receive the profits.

Our company is built on reliability, quality service, security, redundancy, scalability, and state-of-the-art functionality.

Partner in VoIP is the easy, inexpensive answer to entering into the rewarding and profitable VoIP industry.

VoIP in a Box: Its as simple as opening up the box, with everything you need including unique Service Vendor relationships, complete training, marketing materials, lead generation, quote generation tools, formatted contracts and a billing & collections department this saves time and money. Typically we assist our partner on their 1st sale the day after they first talk to us. They are often signing up customers, even before we have a chance to customize any marketing material.

Timing Could Not Be Better **PartnerInVoip** Solution is Unique. VoIP customer opportunities are increasing and the timing could not be better to start a VoIP business.
